ParkSmart Adds Affordable Parking to UpTown

ParkSmart is pleased to announce more affordable parking at the parking meters in the Toledo UpTown area. We recently converted five city blocks in the UpTown area to long term parking. The five blocks have a total of 113 metered parking spaces and are located on the 100 block of North Ontario, the 100 block of North 10th, the 300 and 400 blocks of 11th, and the 400 block of 12th street.

Customers can now park for \$.25 cents per hour or park all day during enforcement times (8:00 am – 5:00 pm) for \$2.25. So if you are looking for very affordable parking while you are either working or at play in the downtown area, please consider parking at these spaces. Please see map below. Blocks are indicated in red.
